URGE CONSTRUCTION OF MODERN HIGHWAY

Committees From Alexandria Before State Highway Commission

FAIRFAX DELEGATES

Proposed Highway is About Fourteen Miles Long and Extends From Here to Fairfax Courthouse.

Committees from the city council, chamber of commerce and members of the board of supervisors of Fairfax county this afternoon are appearing before the State Highway Commission urging the construction of a road between Alexandria and Fairfax Courthouse on what is known as the Little River Turnpike, a distance of about fourteen miles.

The Alexandria delegation left here at 9.40 o'clock this morning and they met the supervisors from Fairfax. The hearing was begun at 2 o'clock this afternoon.

Part of the cost of the road would be borne by the United States government and part by the state of Virginia. In order that the government fund may be taken advantage of in order to stimulate the building of good roads the work will have to be done within a period of two years it is stated.

The business interests of Alexandria are anxious for the construction of this road. It would mean considerable not only to the business interest of this city but to the interests of all living along the line of the road.

TREATY BADLY MUDDLED

Friends of Pact Almost Lose Hope of Agreement

Washington, Feb. 18.—The peace treaty compromise negotiations got into such a tangled state yesterday that, despite claims in some quarters that the lines on both sides were weakening, the treaty's best friends in the Senate minimized the possibilites of agreement.

"It looks as though we might come out at the same hole we went in," said Senator Hitchcock, the Democratic leader, after another effort to obtain Republican aid in modifying the Article 10 reservation adopted at the last session of Congress. He added that the Republicans apparently had rejected all compromise proposals on the subject and that he was certain the treaty never could be ratified unless they did compromise.

At the same time, some Senators in the mild reservation group of Republicans indicated their belief that the Democratic proposal might command considerable Republican strength, while some Democrats predicted that enough Democrats to insure ratification would break away and vote for the Republican reservation as it stands.

The result was a muddled situation in which the party leaders on both sides appeared uncertain as to what might be the next development. It generally was agreed, however, that there would be no showdown immediately and that the debate, which began yesterday, would be permitted to run on for the present without any effort to hasten a ratification roll call.

TAFT FIGURED IN CASE

Breach Between Wilson and Secretary Said to Have Started in 1918

President Wilson"s suspicion that Secretary Lansing was trying to "usurp" Presidential prerogatives was caused by an apparently innocent suggestion or indorsement of a plan for William H. Taft to go to Great Britain and France in 1918 and make addresses in behalf of a league of nations.

The plan was first broached by the English embassy, the suggestion coming to the embassy from the home office in London. The suggestion was made to Secretary Lansing who passed it along to Mr. Taft, perhaps without consulting President Wilson.

MAY WITHDRAW TREATY

President's Communication, However, Not in Form of Threat

Washington, Feb. 18.—The allied supreme council has been informed by President Wilson, it was disclosed yesterday that if the proposed Adriatic settlement to which the American government is not a party is put into force the United States might have to consider withdrawing the treaty of Versailles from Senate consideration.

The President's communication was not in the nature of a threat in the common sense of the term, it was said, but was merely a statement of a situation in which the United States might find itself if asked to subscribe to agreements in which it had no hand in the making and to which it was opposed.

FALSE TEETH CAUSE DEATH

Baltimore, Feb. 18.—Strangled by her false teeth, which became lodged in her throat in an attack of acute indigestion, Mrs. Sarah E. Black, 1613 Jackson street, died Monday night before the teeth could be removed. Two neighbors of Mrs. Black and a physician were with her at the time.

When Mrs. Black was stricken with indigestion she called upon her neighbors. While they were working over her the teeth became lodged in the back of Mrs. Black's mouth. The circumstance was not noticed until she was nearly dead.

The physicians refused to give a death certificate and Coroner Otto M. Reinhardt will investigate.

J. SIDNEY PETERS HAS AN OPPONENT

J. Harry Smith, of Culpeper, Candidate for Prohibition Chief

ISSUE IN THE SENATE

Deans Measure, Substitute for Gilpin Resolution, Will be Debated in Upper House—Has many Opponents

Richmond, Feb. 18.—Prohibition, far from being a dead issue, will crop up from two different angles in the General Assembly within a few days, when a double-barreled attack on Dr. J. Sidney Peters will be launched, one aimed at the abolition of his office as Commissioner of Prohibition and the other at taking the office from him and placing it in the hands of another.

J. Harry Smith, of Culpeper, former member of the House of Delegates is the man being urged as the successor to Dr. Peters in event the Senate follows the action of the House and votes to give the Department of Prohibition a new lease of life until September 1, 1922. His candidacy, which has a strong backing already, will come to the fore at the Democratic caucus, which must be held within a short time to name a Prohibition Commissioner for a new term, starting September 1 of this year, provided the office is not abolished.

The Deans substitute to the Gilpin bill, continuing the Department of Prohibition two more years, was reported out from the Senate Committee on Moral and Social Welfare Monday afternoon by a vote of 6 to 1. Senator Saxon W. Holt, of Newport News, was the only opponent to the report.

The Gilpin bill as introduced in the House provided for the immediate abolition of the Department of Prohibition. The bill was hotly contested the drys, led by Parke B. Deans, of Isle of Wight, offering as a substitute the abolition of the Department on September 1, 1922, or after the next General Assembly convenes. After a bitter fight, the Deans proposal went through by a decisive majority.

Forces opposing the Department of Prohibition and Commissioner J. Sidney Peters are confident that the drys cannot prevent amendments in the Senate. Seventeen Senators are said to have been pledged for an amendment abolishing the department on September, 1921 and thereby sending the bill back to the House for concurrence.

Opposition to Dr. Peters was expressed freely in the House during the debate on the Gilpin bill, and it has been known for several days that a candidate would be in the field against him. The Democratic caucus held several weeks ago to fill vacancies in the judiciary failed to act on the election of a Prohibition Commissioner because of the moves on foot to abolish the department.

Mr. Smith represented his district in the lower branch of the General Assembly several terms, notably in 1914, 1916 and 1918. He was a consistent supporter of the dry cause and voted for the enabling act, which referred the liquor question to the people. Sixteen members of the Senate and large numbers in the House are said to have pledged their votes to him in the caucus.

SPORTS

Interest in the coming court battle Friday night at the Armory Hall between the Lyceums and Dreadnoughts is at a fever heat, due a great deal to the defeat handed the Dreadnoughts Monday night by Manager Creegan's Virginia Athletic Club quintette. This tumbled the Dreadnoughts somewhat from the top of the ladder, and put them within reaching distance of the Lyceums and Virginias. At this stage of a game, a defeat will upset the league standings to no small degree. Manager Wheatley of the Lyceums is banking on winning this contest, and then taking one from the Virginias next week. Manager Wenzel of the Dreadnoughts hopes to have both Tony Crilly and Roberts in the game Friday night. Joe Fitzgerald, of Gonzaga, who refereed the Virginia-Dreadnought game, will officiate Friday night.

The Community Center All-Stars defeated the Columbia Athletic Club last night at McBurney's Hall 36 to 20. Hamilton, Entwistle and Alexander starred for the winners, while Meade featured for the losers. Manager Tullock of the All-Stars is figuring on booking several strong teams from Washington next week.

A meeting of the Virginia Athletic Club will be held Saturday night at the Community Center at 8 o'clock. Baseball will be the chief topic of the meeting.

The Dreadnought Athletic Club will be organized tomorrow night at a meeting at the Community Center at 8 o'clock. All members or candidates for membership are requested to attend this meeting.

Tuesday night the Community Service baseball team will be organized at a meeting at the Community Center, scheduled for 8 o'clock. Rosy Hayden will captain the team, with Bernard Hamilton as manager. All candidates are requested to attend this meeting.

Kline.

Many questions of vital importance to the dealers of the State will be acted upon at this convention.

MAY JOIN RANKS OF DRYS

Dublin, Feb. 18.—Ireland is likely to be the first European country to adopt prohibition, the results of the recent municipal elections show.

In Dublin scarcely a man connected with the liquor trade has a seat in the new council, and similar results are reported all over the country.

This has been brought about largely by the increase in the number of women electors.

ATTACKS STATE DRY DEPARTMENT

Delegate Declares One Firm Made $100,000 on Business

"DRUGGIST BAR ROOM"

Resolution in Virginia House Calling For Investigation Causes a Spirited Discussion.

Richmond, Va., Feb. 18.—A joint resolution calling for a complete investigation of the State department of prohibition was introduced in the house of delegates yesterday. The resolution would create an investigating committee of six, two of whom are to be named by the speaker of the house, one by the president of the senate, two ditizens to be appointed by the governor, and the State accountant.

Commissioner of Prohibition Peters is called upon to furnish the House of Delegates with a detailed statement showing the quantity of whisky sold to H. Mercer Shield, druggist, for sale upon physicians' prescriptions, the names of such physicians and the price paid for whisky so sold, in a resolution adopted by the lower branch of the General Assembly. The resolution, which was introduced by Delegate Robert O. Norris, and which was favorably reported by the House Committee on Moral and Social Welfare, was called up by its patron when the House met Monday.

After some little debate, which was participated in by Delegates Norris Ramsey and Gordon, who advocated its adoption, and Delegate Deans, to whom the Delegate from Lancaster referred as "champion of the dry forces" who opposed its adoption, the House adopted the resolution by an overwhelming vote, the action being almost unanimous.

Speaking to his resolution, Mr. Norris told the House that he had been informed that the price paid for whisky by Druggist Shield was $1.25 a quart, and that he sold it for $4, making more than $100,000 in profits during a period of less than twelve months.

The Delegate from Lancaster charged that the operation of the "drug store-barroom" constituted a scandal, and that the people of Virginia were entitled to know the exact facts in the case.

"This drugstore-barroom" he said, "did a more enormous business than any barroom ever did in the palmiest days of the wet regime. I understand that lines of citizens stood in front of this barroom for a distance of more than 100 yards."

The Delegate from Isle of Wight objected to Mr. Norris's reference to "barroom."

"Well, it was a barroom," was the rejoinder of the Delegate from Lancaster. "And a barroom which did a more thriving business than any saloon ever licensed here."

Mr. Norris did not believe, personally, that the commissioner could furnish the information requested, "If he is unwilling or unable to give it then the House should known it," he argued.

"Don't you think it is within the province of the General Assembly to investigate any public office that it thinks needs it?" Mr. Deans was asker by Mr. Norris. The former insisted that the General Assembly was not interested in Druggist Shield's profits.

The drugstore in dispute Mr. Norris declared, caused most of the opposition against continuance of the Prohibition Department.

TEA FOR SAVING SOULS

New York, Feb. 18.—Tea as an aid to salvation is advocated by Bishop E. S. Lines of the Episcopal Church.

The bishop made the suggestions at a conference of the clergy of the Newark diocese that they try serving tea after evening devotions as a means of getting in closer touch with their parishioners.

"The idea may shock some old fashioned people," said the bishop, "but I suggest you think it over."

URGES NEAR EAST HELP

Armenia Faces "Holocaust of Death" Unless Aided Says Dr. Wiley

That "a holocaust of death" awaits the people of Armenia unless the people of America provide relief, was the assertion made yesterday by Dr. Harvey W. Wiley, in an appeal to the people of Washington to contribute to the Near East relief.

"Every dollar given to this cause goes unmutilated to its destination. We have no paid solicitors.

"Let your heart speak for you. Let your child playing about your feet appeal to you. There are thousands of children of his age starving and freezing. We do no ask you to refrain from other worthy charities, either at home or abroad. We do ask you to consider this one which is now most appealing and most insistent. There are no absolutely starving people in Washington. There are few in Armenia who have even one square meal a day.

"Ask yourself: "Have I done what I should to relieve this unfortunate people, victims of a cruel Turk and a cruel war."

WETS VERSUS DRYS

We are not a prophet nor the son of a prophet, but several years ago while the issue between the wet and dry elements was on in Virginia we anticipated conditions in the Old Dominion which are in evidence today. The Gazette at that time maintained that local option should be the issue to come before the voters, not prohibition, but when a majority of the suffragans of Virginia voted the state dry, as good democrats, we bowed to the will of the majority, and advocated the strict enforcement of the law. We desire that the law be enforced now against all who have the temerity to violate it But. But we questioned its practicability then, and do so now.

The wrangle now in progress in the Virginia Legislature is but a prelude to what is to become chronic. A large percentage of the members of the General Assembly are not in favor of prohibition, certainly not in its radical form, while another large element is in favor of the abolition of the Prohibition Department.

Rev. J. Sidney Peters, the present superintendent, has a competitor for his position should it be retained while resolutions of inquiry into the operations of the Prohibition Department seek to show that the charge is made that one Richmond drug company has netted $100,000 from the sale of liquor on doctors' prescriptions.

It may be safely forecasted that biennially the prohibition issue will be brought up in the Legislature. The sentiment of a large percentage of the voters of Virginia is against the measure, as it the case in every state of the union. The issue will not down and, sooner or later, it will become a national contention.

There is an old saying to the effect that what has been done before is likely to be done again. In the days of Oliver Cromwell the Roundheads and Presbyterians captured the British government. Charles I was beheaded and the ship of state was known as the Commonwealth. Liquor was banished, the eating of a mince pie forbidden and all amusements virtually eliminated from the country. That generation submitted, but ere long the Restoration came when Charles II. took the throne. To use Biblical words, "the last stage was worse than the first." More liquor was consumed than in the day of the Cavilliers, while the performances in the amusement halls became more obscene than ever.

A BIT OF ADVICE

First—Don't Delay. Second—Don't Experiment.

If you suffer from backache; headache or dizzy pell; if you rest poorly and are languid in the morning; if the kidney secretions are irregular and unnatural in appearance, do not delay. In such cases the kidneys often need help.

Doan's Kidney Pills are especially prepared for kidney trouble. They are recommended by thousands. Can Alexandria residents desire more convincing proof of their effectiveness than the statement of an Alexandria citizen who has used them and willingly testifies to their worth.

Mrs. R. J. Ayers, 319 South Columbus St., says: "I have found Doan's Kidney Pills a valuable remedy. I have used them at different times when my back has been weak and lame and they have always given me good relief in a short time. Doan's seem to hit the right spot and I always recommend them to my friends."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Ayers had. Foster-Milburn Co., Mfgrs., Buffalo, N. Y.

WOULD BAR "WET" SHIPS

Anti-Saloon League Will Seek Legislation to Keep Out Vessels

Washington, Feb. 18.—The Anti-Saloon League of America within the next few weeks will initiate steps to bar from American ports all foreign ships which sell liquor.

This was plainly indicated by Wayne B. Wheeler, general counsel for the league, yesterday. The question will be taken up and a definite line of action determined upon, he said, when the legislative committee meets here within ten days or two weeks.

Asked whether or not the Anti-saloon League would attempt through diplomatic negotiations or treaties to compel the removal of bars from foreign vessels trading in American ports, Mr. Wheeler said:

"We will exhaust every other means before resorting to treaties."

The Anti-Saloon League, Mr. Wheeler also indicate, is contemplating a campaign against the use of wine in christening ships. He said:

"It is unlawful to possess champagne or intoxicating liquor outside of one's residence, except for purposes specially permitted under the prohibition code. The use and possession of it for christening a ship is unlawful because that it is not provided for. While it is not a matter of importance, it is bad policy for any corporation or official to set a lawless precedent, even in christening a ship."

A NERVOUS WRECK

From Three Years' Suffering, Says Cardui Made Her Well.

Texas City, Tex.—In an interesting statement, Mrs. G. H. Schill, of this town, says: "For three years I suffered untold agony with my head. I was unable to do any of my work.

I just wanted to sleep all the time, for that was the only ease I could get, when I was asleep. I became a nervous wreck just from the awful suffering with my head.

I was so nervous that the least noise would make me jump out of my bed. I had no energy, and was unable to do anything. My son, a young boy, had to do all my household duties.

I was not able to do anything until I took Cardi. I took three bottles in all, and it surely cured me of those awful headaches. That has been three years ago, and I know the cure is permanent, fr I have never had any headache since taking Cardui.

Nothing relieved me until I took Cardui. It did wondens for me."

MUST EXPLAIN BOOSTS

Washington, Feb: 18.—Large coal consumers were called before a Senate Interstate Commerce subcommittee yesterday to testify regarding alleged increases in prices contrary to the undertaking made when the coal strike was settled by a compromise granting the miners a 14 per cent increase.

Operators weer told when the settlement was made that they were not to increase the price of coal. Since that time complaints have been made that fair price committees in some places have permitted increases.

The subcommittee is headed by Senator Frelinghuysen, New Jersey, and made a general investigation of the coal situation last fall.

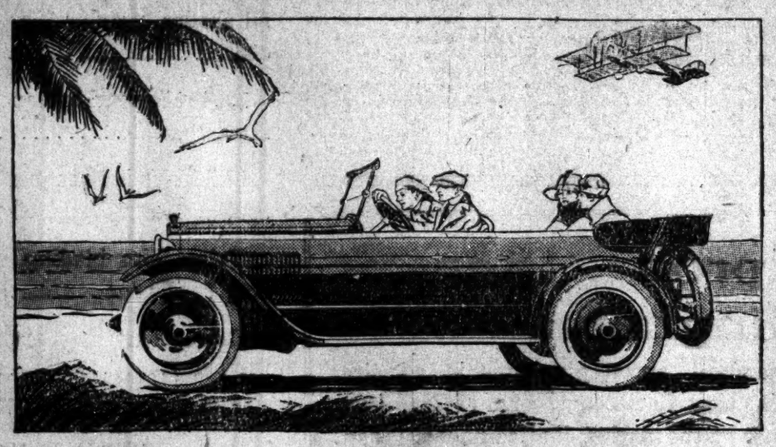
CHANDLER SIX

Famous For Its Marvelous Motor



If You Don't Want to Wait Next Spring, Order Now

LAST year's production of the Chandler Six was of record volume and this year's production will double it; but if you don't want to wait for your new Chandler next spring, we would suggest that you order it now.

This year's automobile shows have attracted crowds greater than ever before, partly perhaps because hundreds of thousands of Americans were unable to secure new cars last year. And these great crowds of motor enthusiasts have found no better value in the whole exhibit of six cylinder cars than that which Chandler offers.

Chandler leads so distinctly in the medium-priced fine car field because it does offer such splendid value; because of its really marvelous motor developed through seven years of production in the Chandler plant and seven years' service on the road in the hands of a host of owners; because of its sturdy, dependable mechanical construction throughout the entire chassis; and because of its attractive and comfortable body.

Compare them all, all the sixes, then pick out yours. It will be a Chandler if you ask Chandler owners.

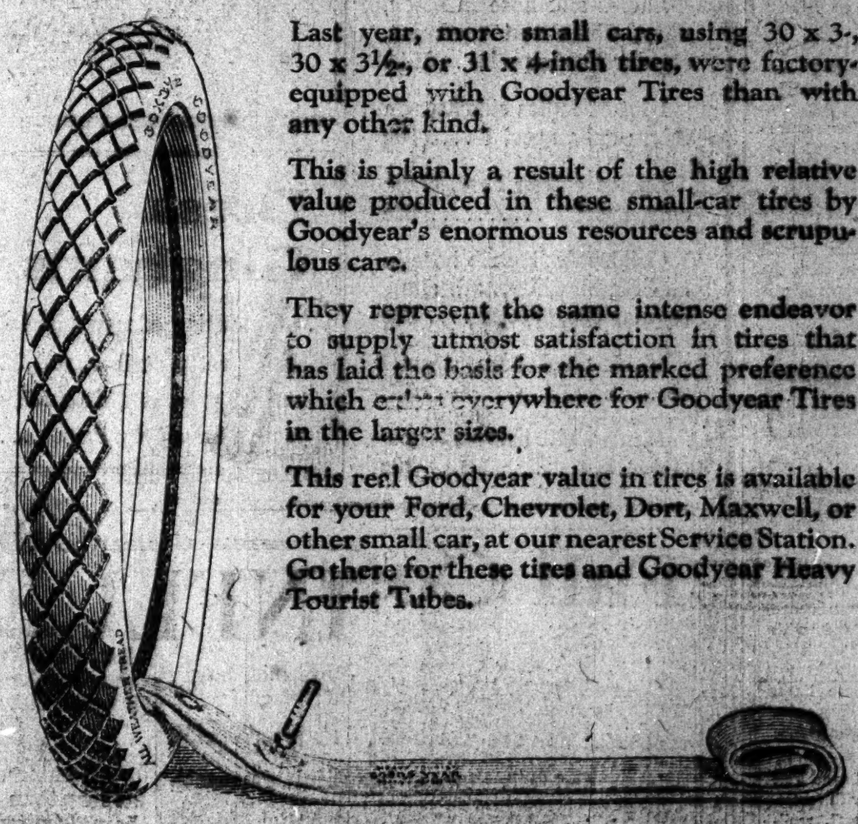
Why More Small Cars Come Equipped With Goodyear Tires



Last year, more small cars, using 30 x 3-, 30 x 3½-, or 31 x 4-inch tires, were factory-equipped with Goodyear Tires than with any other kind.

This is plainly a result of the high relative value produced in these small-car tires by Goodyear's enormous resources and scrupulous care.

They represent the same intense endeavor to supply utmost satisfaction in tires that has laid the basis for the marked preference which exists everywhere for Goodyear Tires in the larger sizes.

This real Goodyear value in tires is available for your Ford, Chevrolet, Dort, Maxwell, or other small car, at our nearest Service Station. Go there for these tires and Goodyear Heavy Tourist Tubes.

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread $20.00

30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread $17.85

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size in motor-proof bag $3.20

THE automobile has been instrumental in teaching us to figure costs.

The purchase price—plus the upkeep—divided by the years of service—gives you the actual cost.

On that basis a good watch is the cheapest thing of value that you can own. A good watch is a necessity and will last a lifetime.

More men have been killed in the United States by influenza since October 1, 1918, than the entire death roll of our soldiers, sailors and marines during the big war, More killed? Yes, ten times as many, and unfortunately the influenza is again with us, while the war is now a matter of history.

SURE RELIEF FROM ITCHING SKIN DISEASES

Will Never Come From Salves, Ointments, or Other Local Treatment.

A million gallons of lotions, ointments, salves or other forms of local treatment will not give any real permanent relief from skin diseases. Get this fact firmly in your mind, and there is hope for you.

If you have ever been afflicted with eczema, tetter, boils, eruptions, or other similar skin irritations you can appreciate the real terrifying discomfort that comes from these disorders. And what you are looking for is not merely temporary, palliative relief that may cause the terrible burning and itching to abate for awhile, but real genuine relief that shakes off the shackles of the disease, and restores the skin to its former healthy condition.

Follow the teachings of science, and you will learn that the skin is fed by the blood, and naturally, then, the condition of your skin will depend upon the condition of your blood. If the blood becomes infested with millions of tiny disease germs that attack the skin, then the fiery irritation and intense itching will remain with you until these germs are attacked at their source and removed from the blood.

Genuine relief, therefore, can only be expected from a treatment that goes right to the seat of the trouble, and strikes at its cause Such a remedy is S. S. S., the reliable old blood purifier that kills the germs of disease, and sends a new supply of rich red blood coursing through the veins.

S. S. S. has been used successfully in some of the worst cases of eczema and other skin disorders, and it can be relied upon to cleanse the blood thoroughly of the germs which cause these complaints. S. S. S. is also a splendid tonic and system-builder, and it builds up and adds new vigor to the whole system.

Go to your drug store and get a bottle of S. S. S. today, and begin the right treatment for skin diseases. Then if you feel that your case requires special medical advice, you can obtain same without cost, by writing to Chief Medical Adviser, 13 Swift Laboratory, Atlanta, Ga.

Is Your Blood Starving For Want of Iron?

Modern Methods of Cooking and Living Have Made an Alarming Increase in Iron Deficiency in Blood of American Men and Women

Why Nuxated Iron so Quickly Helps Build Up Weak, Nervous, Run-Down Folks—Over 3,000,000 People Annually Taking It to Increase Their Strength, Power, Energy and Endurance.

"Is your blood starving for want of iron? If you were to go without eating until you became weak, thin and emaciated, you could not do a more serious harm to yourself than when you let your blood literally starve for want of iron—iron that gives it strength and power to change food into living tissue," says Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital.

"Modern methods of cooking and the rapid pace at which people of this country live has made such an alarming increase in iron deficiency in the blood of American men and women that I have often marveled at the large number of people who lack iron in the blood, and who never suspect the cause of their weak, nervous, run-down state. Lack of sufficient iron in the blood has ruined many a man's nerves and utterly robbed him of that virile force and stamina which are so necessary to success and power in every walk of life.

"I strongly advise those who feel the need of a strength and blood-builder to get a physician's prescription for organic iron—Nuxated Iron—or if you don't want to go to this trouble, then purchase only Nuxated Iron in its original packages and see that this particular name (Nuxated Iron) appears on the package."

In commenting upon the value of Nuxated Iron as a means for creating red blood, strength and endurance, Dr. George H. Baker, formerly physician and surgeon, Mount Sinai Hospital, New York, and Mount Morris Hospital, New Jersey, says:

"What women need to put roses in their cheeks and the spring-time of life into the step is not cosmetics or stimulating drugs, but plenty of rich pure red blood. Iron is one of the greatest of all strength and blood-builders and unless this iron is obtained from our food it must be supplied in some form that is easily assimilated if we want to possess power, energy and endurance. I have found nothing in my experience so effective for helping to make strong, healthy red-blooded men and women as Nuxated Iron.

Manufacturers's Note: Nuxated Iron which is prescribed and recommended above by physicians is not a secret remedy but one which is well known to druggists everywhere. Unlike the older inorganic iron, products it is easily assimilated and does not injure the teeth, make them black nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed by all good druggists.
